

# R.W. Long Lumber & Box Company

*Revolutionizing the Way the World Ships and Stores*

At R.W. Long Lumber & Box Company, we believe strength, sustainability, and simplicity should work together. That's why our patented custom-built foldable/collapsible wooden boxes are designed to replace the outdated cardboard gaylord style boxes, delivering rugged, long-lasting performance year after year for any industry, all for the daily cost of a small cup of coffee.

**Typical warehouse with collapsing cardboard boxes**

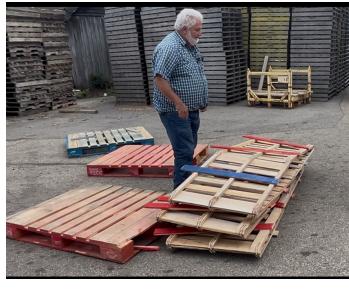

*What our storage and shipping system offers:*

- Fully Collapsible
- Recyclable
- Repairable
- Returnable
- 97% Biodegradable
- Renewable Natural Source
- Own or Rent as many as you want

**R.W. Long Patented EaZy Loop ® Durable System**

**Our EaZy Loop system is easily knocked down without cutting, folding or bending any wire. Simply lift and collapse for easy storage and handling awaiting return shipping.**

Whatever you are shipping or storing we have you covered. Produce, the metal industry, warehousing, machinery. We can build specialty boxes for your shipping and storage needs.

## Why Choose R.W. Long's EaZy Loop System?

- Built to last (Weather Resistant, Durable Material)
- Stack with Confidence (2-3 high with heavier loads)
- Made of durable wood, not cardboard
- Foldable Convenience - Set up/Break Down in Seconds
- Standard box rated up to 2,500 lbs
- Long term savings due to a far superior lifespan
- Rental program includes repair and reshipment
